RE: Chicago Tank Cleaner/Chicago Waste Haulers

Dear Mr. Rupert:

I understand that USEPA, during a routine inspection, found sufficient PCBs at the above referenced site so as to conclude that the site poses an evident and substantial risk to public health. Assistant Attorney General Carla Davis has advised me that you have filed a CERCLA action for an immediate cleanup of this Alsip site.

As you know, in 1985, IEPA referred an enforcement brochure to us alleging that the company was a hazardous waste storage facility and in violation of RCRA. In 1987, we closed our file on this matter since the Agency requested that we do so and since they had referred the matter to you for review as well.

My office is most concerned with the conduct of this company and we are offering our full cooperation to you. We would be happy to work with you and to provide any assistance necessary in resolving this matter. Please contact me if we can be of further assistance.

Very truly,

*Michelle D. Jordan*
